VEW YORK DAILY TRIBUNE SATURDAY, MAY IR. 1803.

DIED OF DISEASE, 184,381.

Great Mortality Among the Colored Troops.

When Abraham Lincoln, on the 15th day of April, 1861, called for 75,000 militia for three months' service, the ermy of the United States had the names of about 14,000 men en its rolls. During the ensuing four years, 2,688,523 men

were replisted for the following periods of time:	
For three months. For six months. For one year. For two years. For three years. For four years.	191,985 19,076 87,558 364,939 43,113 1,950,792
	45 MINO MINO

The records of the office of the Provost-Marshal-General whow from what State, county or town these men came, and what became of each one. These records tell us that of this erge number of troops, 2,408,103 left the army alive. Some of them deserted; a few were dismissed before their term of service expired; a glorious bend went home armless, legless, eyeless, through their patriotic endeavors to save their country from dismemberment. But the majority returned safe and seemd to the place of enlistment, there to be mustered out for

But 280,420 men, good, true and loyal, sealed their patriot-Jam with their blood. Death met them in every shape. Over the conflict only to die of wounds, while 184,000 died of disease In tent or hospital, or by the way-side. To give the exact Sigures, 96,089 died of battle or of wounds, while 184,331 died of disease. This proves that the great mortality of war does not arise from the deadly bullet. It is the hardship of the campaign, the change of mode of life, the difference in climate, that rolls up the terrible record of dead. Two persons died of Mass rolls up the terrible record of dead. Two persons dued of Misease in this war for every one that fell from an enemy's weapon. Yet this percentage of disease is far less than that of other countries and other ages. In the Crimean war, seven-eighthsof the mortality of the British troops during the entire campaign were due to disease, and one-eighth only to deaths from wounds received in action. In January, 1855, the month of the greatest mortality of that campaign, winetyseven per cent of the entire mortality of the British troops remited from disease. "At this rate," says Elliott, "to supply the loss occasioned merely by death, this army would need to be replaced by a new army of equal numbers once in about ten

The following tables show the causes of mortality in our armies during the whole war, and the arms of service in which that mortality occurred: --- WILLED-- -DIED OF DISHASE-

From these tables it appears that 5,221 officers and 90,868 en neted men were killed on the battle-field, or subsequently died of their wounds; while 2,321 officers and 182,010 enlisted men died of disease. So that about one officer was slain in battle for about every 18 men; while only one officer died for every 80 men in the bospital. This excess of loss of life among the officers in battle is partly due to the fact that in battle they are expected Do lead their men on; and still more, it may be, that when

In the Court of Oyer and Terminer, before Justice ingraham, yesterday, James O'Brien, convicted of mandanghier in the fourth degree for the killing of his wife, was railed up for sentence. His explanation is that while he was sitting down in a chair and trying to get the pistol-from his seeket, if exploded, and his wife being at the time leaning over tim, she was accidentally shot. The Court sentenced him to have, years imprisonment at hard labor. Dr. Glaus, convicted of manifalangher in the third degree for the killing of Charles Carson at his sulcon in Thirty-sixth-st. was arraigned for rentence. The Judge in sentencing him remarked that the jury had taken a more grave view of the prisoner's offence than he had supposed. After a short time it would be proper for the pris, ther to make an application for pardon, and any application to him in the matter would meet his favorable consideration. He sentenced the prisoner to two years hard labor in State P. ison, being the minimum punishment for that proce of crime.

Rissans, And at a meeting of the Board. A Directors held the follow-ing day, Cornelius Vanderbilt was vellected. "Traildent and William H. Vanderbilt Vice President.

METROPOLITAN BOARD OF HEALTH.

Over Six Mundred Orders to Abnte Nuisances Issued Yesterday-The Gas Nuisance-Unwholesome Condition of the Kings County Public Institutions-Report of the Sanitary Superintendent-Summary Closing of Sun-dry Fat-Boiling Establishments-The Squatter of Pifty-fifth-st.-The Cellar Population and the Battery Barracks.

The Metropolitan Board of Health met yesterday afternoon at the usual hour in the Police Court-room, President JACKSON S. SCHULIZ occupying the chair, and all the members present save Commissioners Acton and Crane.

The minutes of the last meeting were read and approved.

The minutes of the last meeting were read and approved.

OLDES TO ABATE NUISANCES.

Attorney Bliss presented 549 general orders for the abatement of muisances in different parts of the Health District, and 161 final orders in cases where original orders have been disregarded by owners and occupants. Of the latter class 91 were for parties in Erocklyn, two in Yonkers and the remainder in New-York. Among the orders were a number that apply to the dumping grounds of the contractors for cleaning toe streets, requiring them to remove the manure-heaps that have accumulated at these places. One applies to a varnish manufactory on Forticthest, between Ninth and Tenti-aves, which is represented as extremely offensive and detrimental to the health of the entire neighborhood, because of the manuer in which the business is conducted, and the odors that are permitted to escape into the atmosphere. The erders were passed.

HEALTH OEDINANCE NO. 167 —WATTERING THE STEERTS.

ssed. HEALTH ORDINANCE NO. 167—WATERING THE STREETS.

permitted to escape into the atmosphere. The erders were passed.

HEATTH OEDINANCE NO. 167—WATTEING THE STEETS.

Counselor THACY reported the following ordinance in relation to watering the streets, which was referred to the Sanitary Committee, after considerable debate:

"No part of any paved street or avenue shall be sprinkled or watered during the mouths of May, June, July, August and Seviember, except in the morning, before 70 clock, and then only when the same shall be entirely free and clear of all vegetable and animal matter, without the permission of this Board."

A 108-U-S-10N ON THE GAS NUISANCE.

Dr. SINGE read a long paper detailing what took place at an interview between the Chairman of the Sanitary Committee and the officers and chemist of the Manhattan Gas Company. The gentlemen all agree that the manifacture of gas, as at present carried on, is a great missance; but they affirm that they are not now vise enough to manufacture gas without the climination of these offensive odors, unless at such an expense as the poblic would be unwilling to bear. The esc of per-oxyd of iron for the purpose of separating the sulphur and hydrogen, now given off in the form of sulphuretted hydrogen, and the same of the third of the purpose of separating the sulphur and hydrogen, now given off in the form of sulphuretted hydrogen, and the gas of a better quality of coal, would increase the price of cas. The experiments that have recently been made have failed, and there are no means known, sufficiently inexpensive to reader them agreeable to the gas companies. The Sanitary Committee will make a final report at a future day.

AN EXTENSIVE NUISANCE IN KINGS CONNY.

Inspector Allen reports that about 600 feet cast of the Kings County Lunatic Asylum, there is an open excavation. These so-called ceas-pools are about 12 feet deep. All the finit, excrement, urine, and refuse water from all the county buildings of the Lunante Asylum, containing 506 inmates; the Hespital, containing 300; the Nursery, containing 400; the Alma-

A letter from Dr. Swinklens was read complaining of the Road Commissioners of Castleton, Staten Island, who have so changed the grade of certain streets as to throw all the surface water from the north side of Anetta-st, into the Quanning grounds, flooding the gate house, choking up the drains and making the grounds generally a nulsance, dangerous to life and detrimental to health. Referred to the Sanitary Superintendent.

APPOINTMENTS.

life and detrimental to hearth. Referred to the Santary Superintendent.

Dr. Bayliss was appointed an Inspector for the territory north of Yonkers and south of Sing-Sing.

Dr. S. R. Purcell was also appointed an Inspector, and will be detailed for the special duty of examining the milk offered for sale in the Metropolitical Sanitary Inspector for Flushing.

EFFORT OF THE SANITARY SUPERINITABLENT.

A report from Dr. E. B. DALION. Sanitary Superintendent, concerning that portion of the city lying between Thirty fifth and Fortisch-six, and west of Tenth-ave., was read and filed. The report says.

'In said district are sisteen fat melting establishments, as large a number of manure heaps or receiving deputs, where the material is constantly worked over six hay-shughter-house; two superfactories; fre gut and bladder cleaning establishments; several distilleries and stable accommodations; three hundred swill-fed cows; three extensive free gut and bladder cleaning establishments; several distilleries and stable accommodations; three hundred swill-fed cows; three extensive free gut and bladder cleaning establishments; several distilleries and stable accommodations; three hundred swill-fed cows; three extensive free gut and bladder cleaning establishments, two unperfactories; two offsi docks and one gas manufactors.

"These establishments are all more or less affensive; some of them exceedingly so; but when combined, as at present, they contribute to the formation of a unisance of the most givenus character, destructive of the comfort and detrimental to the health of those who live within reach of the exhibition constantly arising therefrom, as well as the thousands who daily travel upon the Histon and the railroad.

"In regard to most of the establishments enumerated, proceedings have already been commonded.

"Final orders by the Bloard for the suppression of the traineting have already been commonded."

The double of the excellable in the action with prove sufficient, but matter, it seems and the discontinuance of the

of past seconnistions commenced, the nuisance from this case must seen rease.

"The removal of the swillfed cows, and the discontinuance of the stables ordered, and a hearing of the case having been applied for by the proprietors, the order now only swaits the result of such hearing and the final action of the Board.

"The hor-yards and slaughter-houses are apparently as clean, and the business carried on with as much regard for the avoidance, at the bearencer will admit of; so that these, with the distinctions of a less conspisuous clearacter.

"The offal docks are independent of the prompt removal of dead and offal from the city, and farm convinced that this bestimes can be so conducted that its benefits a level not remove the subject to the prompt removal of dead and offal from the city, and farm convinced that this bestimes can be an conducted that its benefits. I need not remainly one how carriessly and inefficiently like the brainess is now conducted, and that in apite of repeated efforts one your part, and assumances on that of contractors, into the jate munufactors, there is reason to believe that the experiments now in progress will give to New-York the same immunity from the missense now connected with it as that now enjoyed by other case-lighted cities.

"A persistent enforcement of orders already issued upon the various establishments which I have true enumerated will, I believe, by recogning some and modifying others, put an end in a great measure

Secretary is while only one officers that the content of the conte

"The third plan obviates the objections of the first two, and with

quarters can be immediately and forever closed as placed of human habitation.

"The plan reduced to practice may be stated as follows:

"The plan reduced to practice may be stated as follows:

"I. Let the police report 100 of the worst calar: in town.

"I. Let the police report 100 of the worst calar: in town.

"I. Let well-appoint as entit—whether police, religious or medical profest the innestes clean and conflortance against these collections and profest the innestes clean and conflortance agartiments, it they will abund to their present quarters.

"A. Remarks with their most useful articles of furniture, give them suitable rocks, with their most useful articles of furniture, give them suitable rocks, with their most useful articles of furniture, give them suitable rocks, with their most useful articles of furniture, give them suitable rocks, with their most useful articles of furniture, give them suitable rocks, with their most and sunday. Discipline as regards good order, cleanitures and sorbiety, could be rigidly ordered. The question of support each tenunt would settle for hinself. These who have trades, as shownaker, tallors, &c., could readily obtain work from wholesale stores, and laborers could pursue their avocations with as much freedom as ever. It would not be long before families would be found in such a community, who had began to thrive, and who could afford to take good rooms in the city, or who might prefer to go to the country. That the progress of disintegration might aimset immediately commence, and places be made for new families."

The "Connie Soogah" will be acted, for the last time, to night, at the Winter Garden.

"The Three Guardsmen" will be acted, for the last time, to-night, at the Olympic.

Bendite; or, the Child of the Zincali," will be acted, for the last time, to night, at Barnum's Museum. The usual day performance will be given at 2 o'clock.

"Mazeppa"-Miss Menkin in the principal partwill be presented, for the last time, to-night, at the Broadway Theater. A Matines will be given here to-day, commencing at 11 o'clock. Miss Menkin will appear on Monday in "The French Spy.

"It is Never Too Late to Mend" is, of course, a feature at Wallack's. "Belphegor" will donbtless become a feature at Niblo's. It grows in popularity from night to night. The Worrell Sisters appear nightly at Wood's Thea-ter, in "The Elves, or the Statue Bride." "Devilain" will be played to-night at the Old Howery, together with "The Lettery Ticket" and "The Dutch Statue." A matinée will be given to-day by Christy's Min-

strels at their Fifth Avenue Opera House. An evening per-formance will also be given here. Bryant's Minstrels give no natinée, but appear in the evening at their customary cheerful abode, Mechanics' Hall. Few opportunities remain of enjoying the Circus.

Next week will be the last of the season. A performance will be given here to-day, at 24 o'clock, for everybody's benefit, but especially for that of children. The evening entertainment will be offered, as usual.

The long expected opening of the new French Theatre, in Fourteenth-st. will probably be witnessed next week. The building is nearly completed, and the stockholders have already chosen the seats to which their subscriptions entitle them. At a recent meeting of the subscribers it was stated that the theatre had been leased to Mr. Grau for \$16,-5000 per annum for three evening performances and one Mat-ince, each week. This amount, it is said, will pay the interest on the cost of the building, as also the cost of its insurance, license, repairs and taxes. A season of English opera is announced for the 24th inst. The French artists are expected shortly to arrive here from their temporary sojourn in Montreal, where they have given a series of 24 performances. Their last representation in that city is devertised for this evening, under the paironage of the Chasseurs-Canadiens, and will be for the benefit of the able directors, MM. Juiguet and Drivet. in September next. Madame Ristori will make her first appearance in America at the French theater, assisted by a company of foreign artists. Thus the prespects of the drams in its new and beautiful home are very cheering.

BROOKLYN ACADEMY OF MUSIC.-Last evening Mr. John E. Owens appered at this Theater to a splandid house, in his great character of Solon Shingle. It is needless to speak of the beauties of an impersonation which has come to be re garded, through the length and breadth of this land, as a great comic institution. Suffice it to say, that it was admirably presented by W. Tayleure, and received with the same tumnit of enthusiasm and delight which ever attends its coming. It will be repeated to-night with the addition of " The Live Indian,"

Metropolitan Board of Excise.

Because of the absence of Cemmissioners Acton and Crane, the Board of Excise held no meeting yesterday afternoon. Some things were discussed in a desultory and in-formal way, after the adjournment of the Board of Health, but no action of any kind was taken. The question of transfers of licenses, brought up at a previous meeting and referred to Counsellor Tracy, was again introduced. In a written report Counsellor Tracy, was again introduced. In a written report upon this subject, the following passage occurs, which we don't not will be the rule adopted by the Board and will control it in any future action it may be deemed advisable to take in these premises. Mr. Tracy ansonance is opinion in these terms:

"The Freise is whaving made no provision for the surrender of a license, or the repayment of the license fer, but having directed the Board to pay over all exists free for certain specified public nees, it is not I wfol for the Board to return the license fee or any part of it on the accounter of a license.

not 1 weful for the Heard to return the increase leve any part of the surrender of a license.

"There being no provision in the law for the excipannent of license, the Board, upon a transfer of the premises and husiness of a licensed person, cannot recognize the successor as authorized to sell under the Excise law until he shall have been duly licensed in his even name, upon his personal application, and upon the payment by him of the license fee of not less than \$30 and not over \$\frac{450}{2}\$."

Visit to Gen. Santa Anna-A Coming Manifeste on the Mexican Question.

The celebrated Antonio Lopez de Santa Anna, and revolutionist, is at present a denized of the quiet little town of Elizabethport, New-Jersey, where, in compilance

town of Elizabethport, New-Jersey, where, in compliance with an invitation, a representative of The Tribune waited on him yesterday.

Gen. Santa Anna, though now 63 years of age, is still strong and vigorous, and says that were it not for the loss of his limb he would not feel the weight of years. He is a men about five feet eight or ten in hight of athletic build, rather stout, and not quite so dark complexioned as the majority of his countrymen. His features, which are well cut, give evidence of great strength of character and determination, the tous ensemble being such as to inspire one rather with reverence and fear than admiration or love. He is very corteous and agreeable in conversation, and when he suitles—a very beautiful and meaning smile—he is very attractive. The face is full and fleshy, the nose prominent but not too much so for the rest of the features, the chin is massive and well shaped, rather than round, and the brow large and furrowed. But the most attractive seature is the eye, large, black glittering and overshadowed by beetling brows. His face is close shaven, and its general expression is that of sternness. The hoad is well shaped and round, the hair which is still of a deep black jet being carefully combed over the crown where it is a little thin.

Some half a dozen Mexicans and Spaniards accompany the General, and share with him the hospitality of Mr. Baiz, late of the West Indies. It is understood that Gen. Santa Anna is at present engaged in the preparation of a statement of his views on the Mexican question and the state of affairs in that country, which will be given to the precise ground on which he stands.

CITY NEWS.

by Larkin G. Mead, jr., including the model of his proposed monument to Mr. Lincoln, at the Studio Building on Tenth LIQUOR LAWS .- This subject will be discussed be-

fore the "Thought Exchange," at Oriental Hall, No. 166 Clinton st., near Grand-st., on Sunday afternoon, at 3 o'clock. NEW-YORK PRISON ASSOCIATION .- At the stated

monthly meeting of the Executive Committee of the Prison Association, to be held on Wednesday evening, at No. 38 Bible House, Mr. G. B. Hubbell, late Warden of Sing Sing, will give the results of his observations of the Irish system of convict prisons. CHRISTIAN UNION .- Conferences will be held Sun-

day evening in the First Baptist Church, Brooklyn, and in the North Presbyterian Church, Thirty-first-st, and Ninth-ave. Speakers—the Rev. Drs. Street, Boute (Episcopal), Foss and others for New-York, and the Rev. Messrs. Gallagher, Galla-her (Baptist), and others for Brooklyn. There will also be con-ferences at 3½ p. m. in Jersey City and Williamsburgh. DEATH OF EX-ALDERMAN JAMES REED .- Early on Friday morning, ex-Alderman James Reed of the Sixth Alder-

manic district, died at his residence, No. 122 Essex st., in this city, of dropsy, after an illness of about 10 days. The deceased had been at one time Clerk of Fulton Market and represented his district in the Board of Addermen during the years 1862 and 1863. The deceased leaves a wife but no children. His funeral, it is understood, will take place to-morrow afternoon. An Omission .- In the article referring to the vari-

ous lines of steamships which appeared in yesterday's Thin-use, we omitted to mention one of the largest and oldest lines —that of the Hamburg and New-York, a weekly line, which touches at Southampton, and whose ships are first-class. THE NORLTE EXTRADITION CASE .- Yesterday before Commissioner Newton, this case was called on again, and the Marshal made a return that the Sheriff still refused to give up the prisoner, but that some of the obstacles which had prevented Noelte's production before the Commissioner would be so far removed that he would in all probability be produced on Saturday, at 12 o'clock, m., to which time the Commissioner adjourned the case.

FORGING ASSIGNMENTS OF REGISTERED BONDS .-In the case of the United States agt. Thomas Loftus alias Boyle, which came up before Commissioner Betts yesterday, the prisoner was charged with defrauding the United States Gov-"There are now three practicable methods of removing the center population." The first is for turning them upon the street. Second by producing for them temporary support. And the third by providing out the third by providing out them temporary support. And the third by providing out the temporary support. mark had notified the United States Treasury of his less, and this led to the present present prose then adjourned to Monday next.

RUNNERS AND BOARDING-HOUSE KERPERS AR-RISTED. - Yesterday Capt. Harts and some of the officers attached to the Harbor Police arrested William Churchill, Timothy Monahan, Timothy Tracy, Edward N. Laffy, William Timothy Monahan, Timothy Tracy, Edward N. Laffy, wiman Mailland and Peter O'Donnell, houtmen, boarding-house keepers and runners, on a bench warrant issued by Judge Russel, on a charge of having violated a law recently passed by the Legislature, in boarding the British ship Cordillera, lying in the stream. The prisoners have been previously arrested for the same offense, but were discharged by Justice Dowing on the plea of ignorance of the law. They then commenced a civil suit against Capt. Hartt, and not to be outdone the Captain procured a warrant and arrested them, as mentioned

FATALLY INJURED .- While Thomas Gaffney was engaged in excavating, on the 12th inst., for a new building at No. 457 Broadway, a bank of earth caved in. In attempting No. 457 Broadway, a bank of earth cavel in. In the such force against a wall as to fracture his spine. The injured man was conveyed to Bellevue Hospital by officer McArthur, of the Broadway squad, where he died on Thursday. Yesterday, Coroner Gover held an inquest upon the body, and a verticet of accidential death was rendered. The deceased was a maive of Ireland, aged 50 years, and resided in East Ninth st.

FELL THROUGH A HATCHWAY .- An inquest was yesterday held at the New-York Hospital by Coroner Gover, on the body of Frank Christy. The deceased was a porter in the employ of Mr. George H. Francis of No. 24 Warren-st., and on Thursday fell through the hatchway from the second to the first floor, a distance of 14 feet, striking upon his head and sustaining a fracture of the skull. He was conveyed to the hospital and died a few hours after. A verdict of acci-dental death was rendered. The deceased was a native of Ireland, aged 39 years.

FIRE PROMPTLY EXTINGUISHED. - About 2 o'clock esterday morning the Fourth Ward Police discovered fire in Messrs. Tobias & Jonas's lunch-rooms, No. 15 Chatham-st. They notified Metropolitan Steamer No. 1, and three or four members of the Company hastened with axes to the lunch-rooms, and, forcing the doors open, found all the woodwork surrounding a new oven on five. But instead of rousing the city by an alarm, and flooding the place, they quiety cut away all the woodwork, and with a few pails of water extinguished the flames, leaving the salcon almost intact.

A BOARDING-HOUSE THIEF ARRESTED. - Officer Sparrow of the Broadway Squad yesterday arrested James Goodwin, on the complaint of Mrs. Bertha White, residing at No. 320 East Sixteenth-st. The complainant states that in company with a confederate, the prisoner came to her house under pretense of wishing to hire rooms. On leaving, she states that they took a gold chain valued at \$100, and an operagiass valued at \$20. Neither of the missing articles were recovered. Justice Hogan committed the prisoner for trial.

BROOKLYN NEWS.

ROBBERT .- The flour and feed store of Mr. Wm. M. Shipman, No. 109 Myrtle-ave., near Bridge-st., was feloniously was effected by opening the front door with false keys. The sum of \$1,300 had been deposited with Mr. Shipman for safe keeping, by a friend, which, together with \$200 of his own money, was stolen, tesides \$20 worth of Union Perry tickets. The bills were ten \$100 United States and National notes, three \$100 Williamsburgh City Bank bills, and the remainder in bills of smaller demoninations. ed on Thursday night, and robbed of \$1,500. The entrance

BURGLARY IN A CHURCH.-The Bridge-st. M. E. hurch (colored) was feloniously entered on Thursday night, but the thieves did not succeed in getting anything, although there were some \$300 in a drawer in the building at the time.

SNEAK-THIEF.-A young woman, named Ann Kinney, was arrested by Officer Tieknor, of the Forty-first Precinct police, on Thursday afternoon, on the charge of rob-bing the house of Mrs. Margaret Roylan, corner of Hicks and Cranberry-sis, of two worsted dresses and a white skirt, in all valued at \$11. The lady of the house heard some one up-stairs, and, examining the cause discovered the accused, who ran away, pursued by Mrs. Boylan and others, when the officer being attracted ov the crowd arrested her. She was brought before Justice Cernwell and committed for a hearing.

THE LIQUOR BUSINESS .- The total number of applications for liquor licenses granted yesterday were 9 which I was by the Central office; 2 by the Forty-second Pre-cinct police; 4 by the Forty-third Precinct, and 2 by the For-ty-ninth Precinct.

NEW JERSEY NEWS.

BOLD OPERATION BY BURGLARS. - Between 12 and 1 o'clock yesterday morning two burglars gained access to the yard in the rear of the house No. 92 Waynest., Jersey City, occupied by Mr. Andrew J. Shivley, when the effected an extrance to the house by the basement door. Mr. Eiliott M. Best, a relative of the family, was dis-Mr. Elliott M. Best, a relative of the family, was disturbed by the burglars, whom he heard going down stairs, and followed them to the basement. Here the follows laid in wait, and as Best came near struck him a blow on the head with a billet of wood, cutting his temple and laying him speechiess. Meantime, Mrs. Shively raised the window and called for the police, four of whom made their appearance after some delay. After hearing the circumstances related, one of the officers went out of the basement door and found the thieves still present. He gave the alarm, and a rush was made for the yard, but the burglars leaped on to a shed, and thence to the coal-yard fronting on Newark-ave, from whence they escaped. They did not succeed in carrying away any plunder, but a velvet clock worth \$400 and Mr. Best's pantaloous, with \$10 in them, were found near the kitchen door. MR. MEAD'S EXHIBITION.—The exhibition of statues

CRIMINAL TRIALS IN THE HUDSON COUNTY COURT .-In the Hudson County Court yesterday, before Judge Bedler in the case of the six New-York rowdies tried for atrocious assault and battery on Thomas W. Miles, the jury found a verdict of assault and battery against Michael Cunningham, Garret Baldwin. Patrick Genetty, and John Peters. The other two, Hugh McGowan and James Stack, were sequitted. Subsequently, the prisoners were brought into court, and the four first-named narties retracted their former plea of not guilty on three other indictments, for atrocious assault and battery on Williams; resisting the Deputy-Sheriff, and riot, and plead guilty as follows:—assault and battery, on Williams; resisting the Deputy-Sheriff, and riot. The plea was accepted, and the prisoners were remanded, to await sentence. McGowan and Stack were discharged.

A man named Edward Carrigan, aglass-blower, was tried on an indictment for assault and battery on a boy 13 years of age, named James Wilson, by which the latter was severely injured by having a "punts," with pointed glass on the end, accidentally thrust into his thigh by Carrigan, who was classing him out of the Jersey City glass works. The jury, after being out five hours, returned with a verdict of assault, and a recommendation to mercy.

Three men, named Wm. Tierney, James Bohan and Edward Hodsen of Kast Newark, were tried for atrocious assault and battery on John Harmer, a builder, and were acquitted.

At the adjournment of Coart last evening, the petit jurors were dismissed until Monday morning.

ATTEMPT TO THROW A PASSENGER TRAIN PROM THE TRACK .- Two men were arrested at Princeton on Wed nesday, for placing a heavy ladder across the rails for the pur-

needay, for placing a heavy ladder across the rais for the pur-pose of throwing off of the track the Monday night express train, bound east. Fortunately the cow-catcher threw the ladder off of the track, smashing it to pieces and causing no injury to the train. It appears that four men had just pre-riously been put off of the Owi train going the other way, and they resorted to this diabolical mode or revenge.

A diabolical attempt to burn the city of Madison, Wis., was made on Saturday evening. It was fired in five different places at about the same hour—at Noiden's Hotel barn, in the First Ward, at the American House barn, on Webster-at., at Anderson & Davidson's carpenter-shop, in the Third Ward, in the Golden Star Hotel, in the same ward, and at Neuman's carpenter shop, on King-at. These fires resulted only in the destruction of the American House barn, Baker & Campbell's Livery Stable, and the Bowling Salcon adjoining. The motive for this dastardly attempt to burn a city is supposed to be in the neglect of the city to provide bounties for a number of Wiscossin soldiers belonging to the Eighth Regiment, who took this method of instituting revenge.

THE PARDON OF ZENO BURNHAM .- The Governor's perdon of Zeno Burnham has excited considerable comment in New-York. Upon careful inquiry, we are able to give the history of the case. Burnham was charged with the practices of a mock anctioneer, convicted upon trial and sentenced in February leat to imprisonment at Sing Sing for two years and six months. Prominent citizens of New-York, and eminent connect, believing that the conviction was procured upon prejudice, and not upon law and evidence, made early applica-tion for his pardon. The District-Atterney of New York expressed the opinion that the conviction was illegal, and would be set aside by the Courts, and this view was concurred in by be set aside by the Courts, and this view was concurred in by
the Attorney of the State- But the Governor refused to parden, upon the ground that the Courts could take cognizance of
objections of a legal nature. Learning, however, that before
the appeal could be heard and determined by the Courts,
Burnham was likely to die, he decided to grant his release
upon subsequent reconsideration. His action was based upon
the opinion of able lawyers as to the impropriety of the conviction. The united testimony of the Prison Surgeon, the
Agent, and the Inspector in charge of the Sing Sing Prison,
was that longer incarecration would probably be fatal. The
Governor therefore acted upon what appears to be the strongest attainable oxidence in granting a pardon. If there have
been misrepresentations of fact, they will not affect his judgment.
